FIND YOUR RIGHT MASTER’S PROGRAM

Are your English language skills good?

- YES
- NO

Sorry, good language skills are elementary for our English Master’s programs (C1).

Please select your Bachelor’s degree in the next step.

Do you have a first degree in Computer Science, Software Engineering, Natural Language Processing or a closely related subject?

- YES
- NO

Are you interested in Autonomous Systems or Service Technology and Engineering or Visual Computing?

- YES
- NO

Looks like Computer Science is for you! Check out the formal admission requirements, look at courses offered and then apply!

Do you have a degree in General Linguistics?

- YES
- NO

Are you interested in linking Computer Science to Linguistics, in working theoretically with CS methods, in working practically in the lab, in programming?

Note: If you have a degree in General Linguistics and are not interested in the above, we do not offer a suitable Master’s program.

- YES
- NO

Are you interested in Embedded Systems, Communication Engineering and Media Technology or Computer Hardware Software Engineering?

- YES
- NO

Please reconsider your choice of Master’s program.

Do you have a degree in Information and Communication Engineering, Electrical Engineering or a closely related subject?

- YES
- NO

Are you interested in Embedded Systems, Communication Engineering and Media Technology or Computer Hardware Software Engineering?

- YES
- NO

Looks like Information Technology (INFOTECH) is for you! Check out the formal admission requirements, look at courses offered and then apply!

Note: The purpose of this document is to help you choose the right Master’s program, it is not a legal document. All legal requirements are found in the formal admission regulations!
