September 2024

**Late arrival due to delays in the visa issuance process**

We hereby confirm that students of the M.Sc. Electrical Engineering degree program at the University of Stuttgart can arrive later than the lectures start. The admission to the M.Sc. Electrical Engineering is valid even if the student arrives later during the semester he/she has been admitted for.

The admitted applicant needs to be present the latest at the beginning of the examination period. The examination period usually begins at the end of the lecture period, i.e. from mid-February in the winter semester and from mid-July in the summer semester.

We recommend that the student arrives as early as possible to be able to attend the lectures in presence.

Please do not hesitate to contact our faculty's International Service Point (ISP) in case of any questions.

Yours sincerely,

Prof. Dr.-Ing. Ingmar Kallfass  
Dean of Studies of Electrical Engineering
